## Windows 2000 Dialer Set up

### PART I

1. Double Click (DC) on My Computer.
2. DC on Control Panel.
3. DC on Internet Options
4. In the address block type: <http://www.mt-vernon.com> (for the Optic's Home page) or <http://www.yahoo.com> (a popular search engine).
5. Click on Connection Tab.
6. Click on Add
7. Type OpticNet in the box. Click next.
8. Do not use the area code box but type 903-537-7692 for the phone number. Click Next.
9. Click Finish.
10. Highlight OpticNet, then click on settings.
11. Type username and password under Dial up Settings. Click OK
12. Put a dot in Dial whenever a network connection is not present. Click OK.
